-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Wong.

Wong's Fig. 2 illustrates a method and an apparatus for indicating a status affected by the performance of an ALU mathematical operation by performing the steps of executing an ALU mathematical operation instruction (steps 202-210), determining that the instruction is with carry (note that subtraction involves a carry and the step 210 produces a carry), producing a result (the output of step 210) and setting a status flag based on the result with the flag indication a zero or non-zero result (steps 214 and 216).

### ***Claim Rejections - 35 USC § 112***

3. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1; the step of lines 4-5 is indefinite because it requires that the instruction is with carry making the meaning of the term "determining" indefinite. Also the meaning of the phrase "instruction with carry" is indefinite. Also in claim 6 the "producing" step of lines 6-7 fails to be

Art Unit: 2124

clearly related to the “executing” step of line 3, i.e. does not the executing of line 3 produce the result of line 6? The last line of claim 1 is mis-descriptive because it requires the setting of a status flag but if the result is zero the status flag is maintained, not set, note Fig. 4 element 425. Claim 4 is mis-descriptive because “setting” does not include “maintaining” and the “instruction without carry” has not antecedent. Similarly note claims 5 and 6. Claims 7 and 10 contain deficiencies similar to claims 1 and 4, respectively. Lines 5-6 are mis-descriptive because it is the instruction decoder and not the ALU that performs the recited “determine” function.

### *Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Malzahn whose telephone number is (703) 305-9762. The examiner can normally be reached on M-Th from 7:30 to 6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kakali Chaki, can be reached on 703-305-9662. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
